

MGI (UK) LTD

MINIMAL GLAZING SYSTEMS

# About Us

MGI (UK) Ltd are a UK based, premium glazing contractor. Specialising in a diverse range of glazing systems. Following years of working closely with prestigious architects and designers, we have created an impressive project portfolio.

The addition of minimal sliding doors to your project creates a luxury statement to your living spaces. These large areas of glass allow for limitless views & seamless transition with an abundance of natural light.

## Colours & Finish

We offer over 200 + RAL colours as standard on our products. Various finishes are available on request.

## Bespoke Configurations

Our sliding doors are available in numerous styles & configurations to suit each client's taste. Bespoke design features includes various glass types, number of tracks & the addition of an opening corner.

Steel is quickly becoming one of the most popular glazing solutions. Whether used internally or externally, MGI have a wide product range to suit each projects requirements,

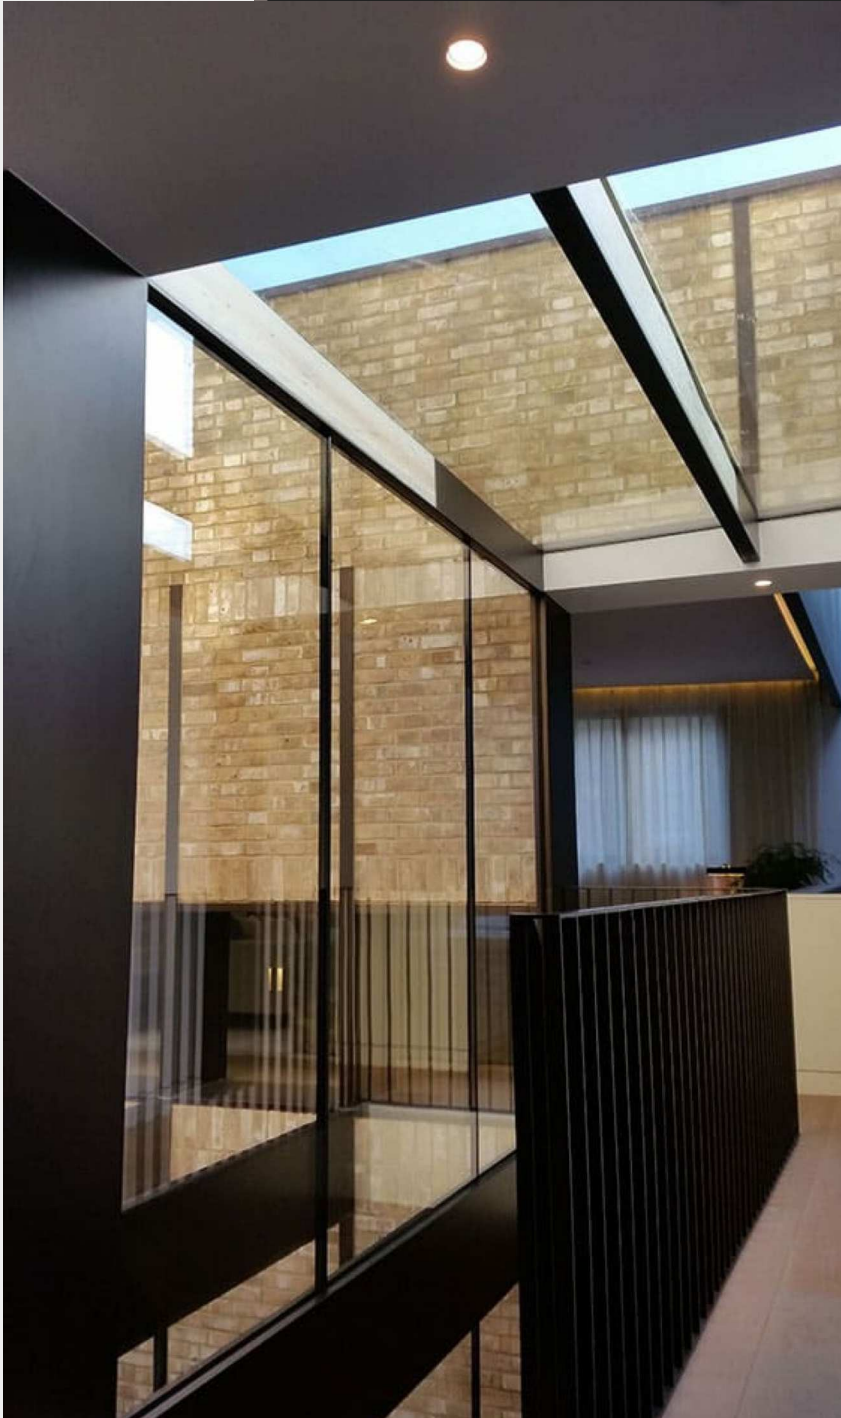

## **Internal & External**

MGI hold numerous products in our portfolio to suit the location, whether it be internal or external. Each system have key components to suit it's placement within the home.

## **Countless** Design Features

Steel systems have the most versatility of all glazing systems. There are a wide variety of bespoke configurations available to choose from, to make your project unique. These range from handle design, glass type & operation.

Rooflights & Structural Glazing can bring countless advantages to your project. They provide a plethora of natural light to flood your internal living spaces. Therefore creating the illusion of larger spaces.

## **Bespoke** Design

Our team of in-house designers have gathered years of experience working on breath-taking architectural projects. Each project is unique and we have the ideal solutions to transform your living spaces.

## **Unique** Architecture

We offer a diverse range of glazing solutions to suit each individual project. Unique design features include the addition of structural steel fins, walk on floors & glass to glass joints.

# Our Concept

Our ideology is clear: Minimalism is key. We have worked hard to create our brand around this simple theory. Years of experience have allowed us to follow this vision & in turn pass our wealth of knowledge onto our clients'.
